

The circle shows what is called by  $s \rightarrow \text{getGPA}()$

The circle shows what is called by  $f \rightarrow \text{putSalary}(500.0)$

The circle shows what is called by  $f \rightarrow \text{getSalary}()$

### Static Cast

- compile error:

static\_cast between two classes which are not related by inheritance is not allowed

### Dynamic Cast

- compile error:

'void' is not a class
